## **DETAILED ACTION**

### ***Drawings***

The drawings were received on 06/29/05. These drawings are approved.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 15-26, and 35-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Mathieu (US 4429213).

Mathieu discloses a composite pipe having a tubular structures 12, 14 and 16, wherein a plurality of electrical current conductive materials are dispersed in the plastic material for increasing the electrical conductivity of a tubular layer. It is noted that the functional language in the claims does not serve to distinguish the invention from prior art meeting the structural limitation and being capable of performing the functions claimed.

### ***Allowable Subject Matter***

Claims 7-14 and 27-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 07/16/03 have been fully considered but they are not persuasive. The hose of Mathieu need only be capable of being used in a subsea environment.

Art Unit: 3742

Certainly the hose as disclosed is capable of being used to convey fluids in a subsea environment.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
